Piano and Guitar Tutor

Instruments

Piano and Guitar

Biography

Jonathon started his journey into music as a guitarist singer-songwriter through his fondness of The Beatles, Led Zeppelin and Jimi Hendrix. Learning privately after school soon turned into attending open mic nights as part of a trio at college to practising weekly with a band that performed locally. Whilst attending an access course at Canterbury Christ Church University, Jonathon soon shifted all attention to the piano studying with John Hursey. This enabled him to study full time for a bachelors of music degree and further his interests of the piano repertoire. Jonathon has had experience as a soloist and accompanist focusing mainly on the works of such composers as Debussy, Ravel, Chopin and Rachmaninov. Jonathon lives in River, is happily married and has a feisty pug named Toad.
